Facial of the month - For normal and sensitive skins

Guinot's HYDRA PEEL treatments exfoliate, resurface, moisturise and renew the skin. Hydra Peeling with Hydra PH uses Phytic Acid while Hydra Peel with Hydrabrasion uses natural cellulose particles and papaya extracts. Hydra Peeling offers two versions of the peeling component, the first with Acid PH for all skin types; the second, gentler, for sensitive skin with manual Hydrabrasion.

Both versions are completed with a skin regenerating cream and massage phase and then with a soothing, beauty-enhancing mask. In just 45 minutes the skin will feel splendid, beautiful and re-energized. Both treatments minimize brown spots, smooth out the texture of the skin, increase radiance, minimize signs of aging and deeply moisturize the skin. The best suited Hydra Peel treatment is determined on the client's beauty goal and level of sensitivity. The skin will look brighter, feel cleaner, fresher and younger regaining its luminosity.

£60 This month only.

***All clients must have a skin test 24hr prior to treatment.**

Back to basics

Cleanser must always be paired with toner! It goes together like Salt and Pepper, Patsy and Eddie, Bonnie and Clyde. One simply does not work without the other! The truth is a good toner is loaded with antioxidants and skin-restoring and skin-replenishing ingredients that nourish skin. These state of the art products actually enhance skin's surface, giving skin what it needs to look fresher, smoother, hydrated and can reduce enlarged pores and lessen redness and flaking and they will prepare your skin for your moisturises and makeup.

We now have the Double Size Cleansers and Toners back in one of the favourites!

Lait and Lotion Hydra Beaute (400ml)

£56 per pair! Saving you £14!

(Must be brought as a pair)

We all need a boost!

Thalgo's Collagen 5000 food supplement works for anyone wanting to visibly reduce wrinkles and fine lines to restore younger-looking skin

Its exclusive formula contains 5,000 mg of easily assimilated marine collagen hydrolysate, for which the effectiveness in reducing wrinkles has been clinically tested.

The facts?

The effectiveness of Peptan™ marine collagen in reducing wrinkles has been clinically tested*.

These studies highlighted, in particular, the ability of collagen to:

- Smooth the skin by reducing the number of wrinkles,
- Prevent the formation of deep wrinkles,
- Improve skin suppleness and hydration.

1 single dose per day before breakfast for 10 days - drink pure or dilute in a glass of water (a course can be repeated up to 4 times a year)

It works perfect with a facial! Please ask your Beauty Therapist for more information.
