We have a Thalgo Day coming up on Tuesday 25th July. As you know, spaces are already filling up as promotion days get very busy, make sure you book early to avoid disappointment.

Beauty At The Tips Of Your Toes

Mavala has developed a **Swiss Programme for Foot Care and Beauty** line through its many years of experience with hand, nails and beauty care to ensure your feet are getting the attention they deserve. With regular professional pedicures to remove any dry skin, your feet will feel smooth, light and healthy helping to prevent corns and callouses.

We love the **refreshing foot gel** which distributed with a light massage onto the feet will cool down swollen hot feet and leave them feeling fresh and stimulated. Our beauty therapists are at your service to provide you with a foot programme that caters to your own needs. **See our summer colours and complimentary lipsticks.**

Have you heard about Microblading?
