New Year, New Beginnings.

Thank you all for your supports, generosity and kindness bestowed to myself and all our team.

We wish you all happiness, health and great fortune and we will endeavour to attend to your needs.

All our supplies have had significant price increases, we endeavour to maintain our structure.

We are trying to compete with the internet who sell some ranges but do not stock or offer the complete range plus they do not give the consultation or prescription.

We are constantly being questioned why they are cheaper online. We are told by our manufactures that they buy old stock and clearance lines, hence they do not have a comprehensive range. Please ask us for more details.

So for the month of January and February we are giving 20% off.

All of our products are current.

Time to get ourselves into gear, to start the new year ahead of us.

January is the time for everyone to start a detox, have you tried our nutritional products to give you a kick start? Please ask for more information on dietary.

The Truly Professional Equipment

Is it time to refresh your hair care or tools?

For the month of January

We have £20 off selected Cloud Nine tools

(hair straighteners, curling wand, heated rollers, hair dryer).

All products come with a 2 years warranty.

Please take advantage of **20% off** all Guinot and Thalgo Retail products.

New for 2019
