Back Hydraderm (A great favourite with men) Decongesting, it improves texture of the skin gently easing the strain from tense muscles and hard to reach areas on the back.	1hr	£60.00
--	------------	---------------

Introducing Cryo 21

Harness the power of cold

Cryo 21 uses the well-known benefits of cold therapy to reduce fat cells as well as healing and renewing skin.

Cryo 21 lipolysis is designed to enable the fats to be attacked in a programmed and selected way. Its a precise determine temperature used through a flat metallic plate fitted to a handle.

Adipose tissue or fat is a term for loose connective tissue composed of adipocytes. Its role is to store energy in the form of fat and also cushions and insulates. This treatment will help to achieve tone and definition. It works by creating a thermal shock to permanently remove the fat cells via a process called apoptosis.

The tissue is massaged as the temperature of the tissue is reduced this acceleration of the bodies natural process digests the redundant cells by revitalising the lymphatic system and improves the vascular system.

From the first application, results are visible, measurable and long-lasting. This means it has commenced and stimulated the natural process and will continue days after the actual treatment.

The number of sessions will be dependent on the extent of the beauty problems.

We can treat almost any part of the body or face by passing a cold probe manually over the area. Fat cells are more sensitive to cold than surrounding area. When freezing the area it goes under a process called Apoptosis (cell death).

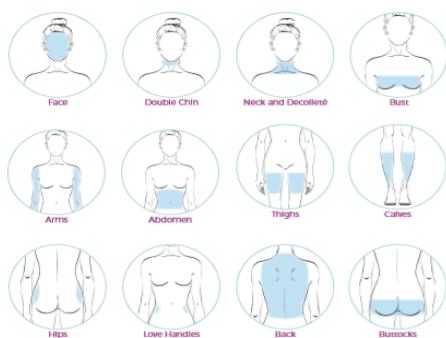

Cryo is FDA and CE approved, offering a safe and harmless non-invasive treatment.

Fat freezing can only be every 2 weeks

Courses and costs are arranged by you clinician

Cryo 21

Treating the Whole Body
from Head to Toe

NO SUCTION, NO PAIN, NO SKIN DAMAGE
NO NEED FOR SURGICAL PROCEDURE OR ANY INCISIONS
NO NEED FOR ANAESTHESIA
NO NEED FOR MEDICATION
NO NEED FOR HOSPITAL TREATMENT
NON-INVASIVE TECHNIQUE
The results are visible and measurable from the first application.

HOW DOES CRYO 21 FAT FREEZING WORK?
Cryo 21 equipment is a system of cryotherapy working at temperatures between 15C and -10C with a temperature reached at hypodermic level approximately of 9C.

Dietary Supplements

Working closely with the nutritional experts and university professors, the THALGO Labatory has created THALGO LA SANTE MARINE- a range of innovative Nutricosmetics, rich in high-performance marine extracts and active ingredients. This range is designed to address basic and nutritional needs, while respecting the body's natural balance, for enhanced results.

Protection and Enhancement of Skin

Collagen 10 000- Wrinkle Correction

This concentrate features an exclusive formula that contains 500 mg of highly assimilable hydrolysed Marine Collagen, with clinically proven wrinkle reducing effectiveness. Combining Vitamin C with Selenium to aid in the protection of cells from oxidative stress.

To be taken 1 per day in the morning before breakfast with a glass of water.

Ocea Sun nCapsules- Sun protection and enhancement.

Provides the skin cells with the nutrients they need during sun exposure. The powerful complex of anti-oxidants- vitamin E, zinc and selenium create natural reserves of anti-oxidant nutrients that preserve the skin from the sun radiation. The combination of various natural carotenoid pigments, derived from algae and plants, helps give the skin a natural, intense and lasting tan.
Take 1 capsule a day for at least 3 weeks before sun exposure, during exposure and for one month after.
